DONSCO Company’s quality policy is:

QUALITY POLICY

Global competition in the production of cast and machined parts requires Donsco to achieve world-class levels of quality. In support of that objective it is our policy to create the conditions for success by maintaining a registered quality management system and requiring that we:

1. Pay close attention to customer requirements
2. Eliminate waste
3. Reduce process variation
4. Manage risk and evaluate opportunities
5. Continuously improve

Donsco's business and quality management systems shall be reviewed continually for effectiveness.
